

31st Annual

# Tour de Moore

## 24 April 2010\*

### course description:

The 2010 Tour De Moore features a new race course: departing Southern Pines through scenic horse country and then returns across the remote training areas of Ft Bragg on excellent roads.

This new course features rolling challenging hills, low traffic, all right hand turns, and a moderate uphill finish -- while not a steep climb, will make the finale epic.

This course features long flat power sections and rolling hills. This could be won from a breakaway or a group sprint

\* USA cycling permit pending.
